Experience

Los Angeles Times — Los Angeles, California

GRAPHICS AND DATA REPORTER (SEP. 2015–PRESENT)

- Report on and design interactive and static graphics for more than 310 stories for web and print publication, including the Time's first and only chatbot.
- Create graphics, visual compositions, and write posts to promote stories on social media channels.
- Make editorial decisions on behalf of the graphics and visualization department during the weekends, based on priorities and workflow.
- Propose story ideas and graphics coverage for breaking news, dailies and at least two long-term projects per year.
- Translate stories from English to Spanish.

National Geographic

GRAPHICS FREELANCER (JAN. 2015–PRESENT)

- Convert maps and graphics from the magazine for digital release on smartphones and tablets.

Diario Las Américas — Miami, Florida

DATA VISUALIZATION REPORTER (JAN. 2015–APRIL 2015)

- Researched and designed information graphics for at least one story per day for print and online publication.
- Created a graphics template and a map database to optimize production in the data visualization department.
- Pitched ideas for visual storytelling and news presentations during daily meetings.
- Translated graphics from English to Spanish.

National Geographic — Washington D.C.

GRAPHICS SPECIALIST (SEPT. 2014–DEC.2014)

- Organized, edited and prepared all maps and graphics for print publication in the magazine.
- Converted all graphics from print stories to web, including making versions for tablets and smartphones.
- Researched and designed web graphics for news stories.
